All amazing custom weapon ports from TITO PRICU  
Thanks to anyone who part took in this project  
Thanks to all the modding community as a whole..  
Trapped inside the walls of an ever changing experimental bunker, will you escape the madness??  
PLAY GUIDE  
Bunker 10 is to be treat as a challenge map, the main goal is to make it through all the rooms and to the exit room in the quickest time possible, additional challenges include opening Pack a Punch and accessing Perk-a-Lot  
This map was created by myself, Madgaz and many talented mappers who each had the basic same room layout and had to build there own creation, i then stitched them all together and added some extra touches to bring this map to life.
